## Retail Price List of Gladiolus Bulbs for 1933

No THRIPS has ever been seen in our Gardens.

All orders of \$1.00 or more are postpaid at the following prices: Multiply single items by six to get the price for ten. I do not offer any bulblets for sale this year as small bulbs are so low in price that it does not pay for the average grower to wait two years for bulblets to bloom. Advise ordering early. Can ship large orders by express any time. Mail orders when not too cold. TERMS—CASH with order or 25% deposit, C. O. D. All prices subject to stock being unsold.

Many like to buy gladiolus bulbs in assorted colors and styles. In this collection I have just what they want as there are upwards of 50 different kinds in the assortment. The large size bulbs will make large spikes this summer. The medium size will be very satisfactory and you will have large bulbs for next year. Most of the small size bulbs will blossom this year if planted early and make large bulbs for next year. They are all named varieties but please do not ask me to identify them by name. The price is very low and satisfaction is assured.

### DAHLIAS

We are listing only a few of the best dahlias that are grown, those we have tried and found to be worth while. We do not sell plants, tubers only.. Each tuber will be true to name and have at least one or more eyes showing. They should be planted on their sides with eye up, about 6 inches deep in good garden soil that has been plowed or spaded at least 10 inches deep as the new tubers must have soft soil to grow and expand in, which they cannot do if the soil is hard. Do not have them fertilized too heavily or they will grow rank stalks and make but few flowers. To grow extra large flowers disbud the side shoots. When blooms begin to go by, cut them off so more will come along. Do not plant extra early, June 1st is about right for New England. NOTE—When first planted cover about 3 inches deep and as stalks grow fill up with dirt to soil level.

George G. Fowler, Esq.,  
Franklin, New Hampshire.

My dear Mr. Fowler:

I would like to express, more fully than the opportunity permitted me at the close of my recent visit to your "floral paradise", my sincere appreciation of the courtesies accorded me upon that occasion.

I couldn't have been more cordially received had I been an emissary of Flora, the "goddess of flowers", vested with a royal commission.

Your display of "Glads", arranged with such admirable precision; so carefully cultivated; so evidently free from insect infestation and so gorgeous in coloring, was a vision which I shall not soon forget.

While Franklin has the honor of being the birthplace of the immortal Webster, it also must eventually acquire a prominent place in the thoughts of nature lovers, if your efforts in floral culture continue to expand as they have during the past few years.

With sincere expressions of regard, I remain,

Yours very truly,  
Edward H. Quimby.
